Product Description

Buy together and save !

Eye: This anatomical human eye model dissects into:

- Both halves of sclera with cornea and eye muscle attachments
- Both halves of the choroid with iris and retina
- Eye lens
- Vitreous humour

The **MICROanatomy™ Eye** model illustrates the microscopic anatomical structure of the retina with choroid and sclera. The left block-like, layered side of the eye model shows the complete structure of the retina including the supplying vascular layer and parts of the sclera from a light microscopic view.
