Pitting Edema Simulator

Item No.	MW1
Weight	0.15KG
Brand	KYOTO KAGAKU, JAPAN

Read More

SKU:

Categories: Decubitus Care

Product Description

Five variations of pitting edema simulator including a normal one

Features	1. Grades of the edemas are based on "Mosby's" Guide to Physical Examination(7th ed.)" 2. The models can be attached to the lower leg of a simulated patients or a training manikins 3. 4 levels of pitting ede,a according to pressures and the depth of indentations
Training skills / Applications	Differentiation of the pitting edema: four different levels of edemas and a normal case Assessment of edemas on the lower legs
Case / Pathology	Normal / 1+Light Pitting / 2+Moderate Pitting / 3+Deep Pitting / 4+Very Deep Pitting
Set includes	5 variations of strap-on pitting edema model 1 piece each
Size (approx.)	W10 x D20cm / W3.9 x D7.9in
Packing size (approx.)	W26x D22 x H12cm / W10.2 x D8.7 x H4.7in
Weight (approx.)	0.15kg / 0.33Ibs
Packing weight (approx.)	1.5kg / 3.3lbs
Materials	Soft resin / Latex free
Production ? Development Supervision	Junji Otaki Professor of Tokyo Medical University
Update	August 7, 2020

Pitting Edema Simulator (MW1)

The Pitting Edema Simulator (Item No. MW1, 0.15 kg, 10×20cm) by Kyoto Kagaku, Japan is a set of five strap-on models — including one normal case — designed to teach differentiation of pitting edema severity on the lower legs.

Grading based on established clinical reference. Edema grades follow Mosby's Guide to Physical Examination (7th ed.), with four levels of pitting edema differentiated by pressure and depth of indentation.

Five distinct cases in one set: Normal, 1+ Light Pitting, 2+ Moderate Pitting, 3+ Deep Pitting, and 4+ Very Deep Pitting.

Attaches directly to a manikin or simulated patient. Each model can be attached to the lower leg of a simulated patient or training manikin, letting students assess edema in a realistic clinical context.

Developed under clinical supervision. Production and development supervised by Junji Otaki, Professor of Tokyo Medical University.

Comes complete with: five variations of the strap-on pitting edema model, one piece each. Made from soft resin, latex-free.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of Kyoto Kagaku

products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: How many edema cases are included? A: Five — Normal, 1+ Light Pitting, 2+ Moderate Pitting, 3+ Deep Pitting, and 4+ Very Deep Pitting.

Q: What clinical standard are the grades based on? A: Mosby's Guide to Physical Examination (7th ed.).

Q: Can these be attached to a manikin? A: Yes — each model attaches to the lower leg of a simulated patient or training manikin.
