Categories: Adult Patient Care

Product Description

Build and evaluate basic patient care and nurse aid competencies! The 3B Scientific® Patient Care Manikin BASIC for simulation in healthcare was developed for scenario based training of basic patient care and nursing skills. The patient care manikin simulates an **adult, life-size patient**, with interchangeable genitals. It can be positioned like a real patient with natural movement of the arms, legs, and joints. You can even make the manikin sit upright in the bed for treatments. It is made of durable, unbreakable, and water-resistant plastics for longevity in the everyday training use. Use the BASIC Patient Care Manikin to **train and evaluate** the following clinical nursing and patient care skills and competencies: **Patient and personal care:**

- Transfer skills: lifting, carrying, and moving a patient
- Bed care of a patient
- Position changing and alignment of a patient
- Bathing a patient (genital care)
- Hair care (washing, combing, drying)
- Care and cleaning of eyes, ears and nose
- Personal hygiene and mouth denture care (partially removable prosthesis)
- Bandaging (includes amputation stump)
- Wound treatment and care (surgical staple seam, laceration and abrasions)
- Communication skills, especially step by step explanation of care measures

Medical care:

- Prevention of bedsores (Decubitus)
- Decubitus evaluation (stages 2-4)
- Decubitus care
- Prevention of muscle cramps
- Prevention of pneumonia
- Prevention of blood clots (Thromboses)
- Prevention of healthcare associated infection (HAI) by measures of medical asepsis and clean techniques
- Inhalation therapy
- Oxygen inhalation
- Use of ventilation bag (mouth to mouth and mouth to nose)
- Artificial respiration, oxygen treatment
- Care of tracheostomy
- Care of Diabetic Foot Syndrome (DFS)

- Ostomy care (colostomy)
- Irrigation of eyes and ears
- Intramuscular injections (buttocks)
- Subcutaneous injections (upper arms and thighs)
- Subcutaneous infusions

Medical simulation training in healthcare: Training with the 3B Scientific® Patient Care Manikin BASIC meets the OBRA requirements of Nurse Aide Training and Competency Evaluation Programs (NATCEP). **Delivered with:** Injection pads, talcum powder, amputation stump, inserts with wound depictions (upper arm and thigh), and tools for fitting. **Upgrade to the PRO version with additional training features:** The 3B Scientific® Patient Care Manikin is also available in a PRO version with additional features like catheterization, enema administration and irrigations. An upgrade kit is available to include these features in the BASIC version. Click here for more information about the PRO version and its advanced patient care and nursing skill features. **Please note** that the replacement parts of the updated 3B Scientific® Patient Care Manikin BASIC also fit the older version with item number P11 / 1000503 (3B Scientific ® Patient Care Manikin, II), a fitting tool will be delivered with the replacement parts.

3B Scientific® Patient Care Manikin BASIC (1018817 [P11/1])

The 3B Scientific® Patient Care Manikin BASIC (Item No. 1018817 [P11/1], 19 kg, 174 cm) was developed for scenario-based training of basic patient care and nursing skills, simulating an adult, life-size patient with interchangeable genitals.

Moves and positions like a real patient. Natural movement of the arms, legs, and joints allows realistic positioning, including sitting the patient upright in bed for treatments. Made of durable, unbreakable, water-resistant plastics for longevity in everyday training use.

Comprehensive patient and personal care skills, including transfer skills (lifting, carrying, moving), bed care, position changing and alignment, bathing and genital care, hair care, eye/ear/nose care and cleaning, personal hygiene and denture care, bandaging (including amputation stump), wound treatment (surgical staple seam, laceration, abrasions), and step-by-step communication skills training.

Full range of medical care skills, including bedsore (decubitus) prevention and evaluation (stages 2–4), prevention of muscle cramps, pneumonia, blood clots, and healthcare-associated infections, inhalation and oxygen therapy, ventilation bag use, artificial respiration, tracheostomy care, diabetic foot syndrome care, colostomy care, eye/ear irrigation, and intramuscular and subcutaneous injections.

Meets NATCEP requirements. Training with this manikin meets the OBRA requirements of Nurse Aide Training and Competency Evaluation Programs.

Comes complete with: injection pads, talcum powder, an amputation stump, wound-depiction inserts (upper arm and thigh), and fitting tools.

Upgradeable to PRO-level features. An upgrade kit is available to add catheterization, enema administration, and irrigation capabilities to this BASIC version — contact us for details on upgrading or on the full PRO version.

Note: replacement parts for this updated model also fit the older P11/1000503 version, with a fitting tool included.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of 3B Scientific products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: What's the difference between BASIC and PRO? A: PRO adds catheterization (male and female), enema administration, naso-gastric lavage/gavage, ostomy care, and intestinal/bladder/vaginal irrigation — an upgrade kit can add these to the BASIC version.

Q: Does this meet nurse aide training requirements? A: Yes — it meets OBRA requirements for Nurse Aide Training and Competency Evaluation Programs (NATCEP).
