Nurse Training Baby, New Born (1000505 [P30])

This advanced and incredibly realistic newborn model by 3B Scientific (2.5 kg, 52 cm) features male

and female configurations, including internal organs (heart, lung, intestine system, stomach, and bladder) beneath a removable belly covering, interchangeable genital organs, soft ears, and a fully movable head, arms, and legs.

A comprehensive set of infant care procedures, including tracheotomy care, male and female catheterization, insertion of a tube into the mouth or nose, enema insertion, femoral and gluteal intramuscular and subcutaneous injections, and palpation of fontanels.

Comes ready for training, with accessories including a syringe, suction catheter, feeding tube, urinary catheter, urine collection bag, catheter lubricant, and carrying bag.

Part of a broader pediatric/nursing manikin family. This newborn model sits alongside SEM Trainers' Multipurpose Patient Care Simulator and Nursing Care Patient Simulator (both 5-year-old), the 1-year-old Mike® and Michelle® Pediatric Care Simulator, and the newborn Susie Simon® Nursing Care Simulator — each supporting a different range of procedures, from full CPR chest compression training and G-tube placement (Multipurpose) down to focused catheterization, bandaging, and enema care (this model).

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of 3B Scientific products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Can the model be configured as male or female? A: Yes — it features interchangeable genital organs.

Q: How does this compare to the Multipurpose Patient Care Simulator? A: This newborn model focuses on core infant care (catheterization, bandaging, enema, injections), while the Multipurpose Simulator adds CPR chest compressions, intubation, G-tube placement, and IV/IO access for a 5-year-old patient.
