SKU:

Categories: Adult Patient Care

Product Description

Set includes

1 lower torso manikin/1 male genitalia/1 irrigation bag/ 1 connection tube/ 1 syringe/1 beaker / simulated watery feces / 1 bottle / 1manual pump /1 set of simulated urine (10 swab set)

Size (approx.)	W31 x D50 x H21cm
Weight (approx.)	0.45kg
Update	October 15, 2020

No Item No., Brand, or MPN fields at all — and no narrative description, just the bare specs table. Also a spacing typo: "1**manual** pump" ? "1 **manual** pump."

DESCRIPTION (copy-paste into WordPress):

Adult Diaper Training Simulator

The Adult Diaper Training Simulator (0.45 kg, 31×50×21cm) is a lower torso manikin with male genitalia, built to give caregivers and nursing students realistic, hands-on practice with adult incontinence care.

Simulates real urinary and bowel output for authentic practice. The set includes simulated watery feces and a set of simulated urine, letting trainees practice full diaper changes under realistic conditions rather than a dry, unrealistic mock-up.

Delivers fluid via a simple, controllable system. An irrigation bag, connection tube, syringe, beaker, and manual pump work together to deliver simulated output on demand, giving instructors control over when and how much fluid is released during a training session.

Comes complete with: 1 lower torso manikin, 1 male genitalia, 1 irrigation bag, 1 connection tube, 1 syringe, 1 beaker, simulated watery feces, 1 bottle, 1 manual pump, and 1 set of simulated urine (10 swab set).

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: What does this simulator help train? A: Realistic adult diaper and incontinence care, including handling simulated urinary and bowel output.

Q: What's included? A: A lower torso manikin, male genitalia, an irrigation bag, connection tube, syringe, beaker, simulated watery feces and urine, a bottle, and a manual pump.
