Product Description

New **anatomy app** called 3B Smart Anatomy now included for FREE with Flexible Human Spine Model with Soft Intervertebral Discs.

Every original 3B Scientific anatomy model now includes these additional **FREE features**:

- Free access to the **anatomy course** 3B Smart Anatomy, hosted inside the award-winning Complete Anatomy app by 3D4Medical
- The 3B Smart Anatomy course includes **23 digital anatomy lectures**, 117 different virtual anatomy models and 39 anatomy quizzes to test your knowledge
- Bonus: **FREE warranty upgrade from 3 to 5 years** with every product registration

TIP: You will also receive access to a **free 3-day trial to all premium features** of the Complete Anatomy app when you sign up for your 3B Smart Anatomy course.

To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. [Click here](#) to learn more.

Soft discs add greater realism to this spine model! This unique spine shows how the discs deform during normal and abnormal positioning. Use it to demonstrate any number of pathological conditions of the spine such as scoliosis, lordosis, kyphosis, or subluxations. Herniation of the vertebral column can be demonstrated with compression. In addition, the special mounting allows unobstructed viewing during demonstration and display of the spine. This spine model includes spinal cord and spinal nerves. The spine comes with its own, removable stand.
