To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. Click here to learn more.

This totally new life-size (68") male/female model facilitates an understanding of human anatomy like no other human anatomy model in the world! The human that can be dissected, features a human torso that has the skin removed from one half showing the underlying musculature of the chest, back, abdomen, head and neck. The front wall of the torso detaches to reveal the inner structures and organs in tremendous detail. In all, 41 component parts can be dissected from the human anatomy model. The human anatomy model comes with wooden roller base.

The following parts are removable from the human anatomy model:

- 2-part head
- Brain half
- M. sternocleido stoideus
- M. Deltoideus
- M. Biceps brachii
- M. Triceps brachii
- M. Palmaris longus with m. Felxior carpi radialis
- M. Brachioradialis with m. Extensor carpi radialis
- Skin of the left arm
- Muscled leg, upper part
- Muscle leg, lower part

- Skin of the left leg
- Abdominal cover
- Mammary gland
- 2 removable lungs
