Categories: Parenting Education

Product Description

The original manikin that simulates a baby's varying needs! Take the glamour out of teen pregnancy and demonstrate the realities of the real world to your students. Characteristics of Standard Ready-or-Not Tot®: • Offers three different tending programs typical of most babies, to simulate normal baby-tending needs along with fussy periods in each program. • Provides programmed tending events

that are unpredictable to the student, but easy for the teacher to monitor, unlike other simulators. • Cries, coos, and burps in response to appropriate care. Programs are 48 hours in length and run continuously. • Includes a “demo” option. • Demands student’s attention for periods of 5 minutes to 30 minutes for each tending occurrence. There are 25-27 tending occurrences within each 48-hour time frame (for total of 7 hours of care). • Provides teacher with complete control of the child care experience. • Includes a “panic” key for quieting difficulties without discontinuing the entire simulation. • Alerts teacher to a student’s abuse, panic, or tampering with the control box. • Newborn-size doll represents a baby of a teen mom - 5 lbs. 8 oz., 20" long. • Anatomically correct. You never have to worry if students neglected the manikin. Ready-or-Not Tot® uses set programs so the teacher always knows when the manikin required care. Student response to the manikin’s needs are easily checked using the template provided. Comes complete with one set of student keys, one set of teacher keys, reproducible parental consent form/permission slip, reproducible student response sheet, teacher correction template, diaper, 9V battery, and instructions.

Standard Ready-or-Not Tot® – White Male for Teen Pregnancy Prevention Education in India

The Standard Ready-or-Not Tot® – White Male (Item No. 1017931 [W44214]) [BRAND: UNVERIFIED — CONFIRM BEFORE PUBLISHING] is an infant-care simulation manikin designed to show students the real, unglamorous demands of caring for a baby — a core tool for teen pregnancy prevention programs.

The manikin runs on one of three built-in tending programs simulating typical baby-care patterns, including fussy periods, over a continuous 48-hour cycle. It cries, coos, and burps in response to appropriate care, with 25–27 unpredictable tending events per cycle demanding 5 to 30 minutes of attention each — totaling roughly 7 hours of active care across the assignment. Teachers get full, transparent monitoring of the simulation, including alerts for abuse, panic, or control-box tampering, plus a "panic" key that quiets the manikin without ending the exercise. A demo mode is included for classroom orientation before the full assignment begins.

The newborn-sized doll represents a baby born to a teen mother — 5 lbs. 8 oz., 20" long, anatomically correct. Comes complete with student and teacher key sets, a reproducible parental consent form, reproducible student response sheet, teacher correction template, diaper, 9V battery, and full instructions.

Specifications: Dimensions 56.5 x 29.6 x 16.5cm. Weight 2.988kg. Doll size 20" long, 5 lbs. 8 oz.

Why Buy from SEM Trainers? SEM Trainers & Systems has supplied medical simulation and health/parenting education equipment to 1,500+ institutions across 28 Indian states for over 30 years, with pan-India delivery and dedicated after-sales support.

FAQ

Q: How does the teacher verify student care without constant supervision? A: The manikin runs a fixed care program with logged tending events; a template lets teachers check the student's actual response record against what the program required.

Q: What's included with the manikin? A: Student and teacher key sets, parental consent form, student response sheet, teacher correction template, diaper, 9V battery, and instructions.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
