Product Description

This kit contains a teen BSE model and a TSE model to teach teens the importance of early detection of cancer. Teen BSE model contains lumps in a variety of sizes. TSE model contains two lumps in each testicle. Each model is made of soft, durable BIOLIKE synthetic tissue and comes with a carrying case.

Teen BSE/TSE Training Set – Beige Skintone for Adolescent Cancer Awareness Education

The Teen BSE/TSE Training Set (Item No. 1017933 [W43104], Brand: WRS Group, MPN: 26495) pairs a teen breast self-examination (BSE) model with a testicular self-examination (TSE) model to teach adolescents the technique and importance of early cancer detection.

The BSE model contains lumps of varying sizes to train palpation and lump recognition. The TSE model contains two lumps in each testicle for the same purpose. Both models are made of soft, durable BIOLIKE synthetic tissue that simulates realistic tissue texture, and the set comes with a carrying case for storage and portability between training sessions.

Specifications: Dimensions 26 x 22.9 x 18.8cm. Weight 0.9kg. Skintone: Beige.

Why Buy from SEM Trainers? SEM Trainers & Systems has supplied medical simulation and health education equipment to 1,500+ institutions across 28 Indian states for over 30 years, with pan-India delivery and dedicated after-sales support.

FAQ

Q: What does this training set teach? A: Breast self-examination (BSE) and testicular self-examination (TSE) technique for early cancer detection, using models with palpable lumps of varying size.

Q: What is the model made of? A: Soft, durable BIOLIKE synthetic tissue designed to simulate realistic palpation.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
