Look at allergies from a microscopic point of view! Printed on premium glossy (200g) paper. Convenient Poster size 50x67cm (20x26").

Allergies Chart (VR1660UU) — Allergy Types & Microscopic Mechanisms Teaching Poster

The Allergies Chart (Item No. 4006715 [VR1660UU], 0.075 kg) by 3B Scientific, Germany is a colorful anatomical chart detailing the different types of allergies — from pollen and bug bites to drug allergies — giving students and patients a clear visual reference across the full range of common allergy triggers.

Goes beyond triggers to the underlying mechanism. The chart looks at allergies from a microscopic

point of view, helping students understand not just what causes an allergic reaction but what's happening at the cellular level — useful for building genuine understanding rather than just trigger memorization.

Built for classroom and clinic durability. Printed on premium glossy 200g paper at a convenient 50 × 67 cm (20 × 26") poster size, suited for wall display in classrooms, clinics, or patient education areas.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of 3B Scientific products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: What types of allergies does this chart cover? A: A range of common triggers, including pollen, bug bites, and drug allergies, alongside the microscopic mechanisms behind allergic reactions.

Q: What size is the chart? A: 50 × 67 cm (20 × 26"), printed on premium glossy 200g paper.

Q: Does this pair well with other respiratory/allergy education materials? A: Yes — it complements the companion Asthma Chart for a combined asthma and allergy education display.
