Product Description

Demonstrate the proper use of condoms by using this realistic model. Consists of an erect penis, 12 condoms, syringe and artificial semen (UV-fluorescent fluid) to simulate ejaculation. Great aid for sex education! Mounted on a stand with suction cups and delivered with carrying bag. Why Choose the Condom Training Model Light for Your Simulation Lab in India? The Condom Training Model Light from 3B Scientific is a trusted training tool used across simulation labs in India for hands-on condom application training practice. This simulator helps medical students and healthcare professionals build critical competencies in a safe, controlled environment — fully aligned with community health education objectives under National Health Mission and NMC public health curriculum. Who Is This Simulator Ideal For? This product is recommended for community health centers, medical colleges, public health programs, NGOs working in reproductive health, and government health awareness campaigns. Whether you are setting up a new simulation lab or upgrading your existing facility, the Condom Training Model Light offers an excellent balance of realism, durability, and training value.
