Product Description

This model of an erect penis with testicles is used to learn how to use a condom safely. The anatomical structures and its firmness are absolutely realistic, so that your students can train putting on and removing a condom in a realistic way. Supplied with 12 dry training condoms and a carrying bag. This model is great for sex education! **Condom Training Model, White Skin Tone (L42) — Realistic Practice for Safe Condom Use**

The Condom Training Model, White Skin Tone (Item No. 1000340 [L42], 0.683 kg) by 3B Scientific, Germany models an erect penis with testicles, built specifically to teach safe condom use through realistic hands-on practice.

Realistic anatomy and firmness for genuine skill-building. The anatomical structures and firmness

are designed to be realistic, so students can practice putting on and removing a condom in a way that closely reflects real use — rather than learning the steps only in theory.

Ready to use out of the box. The model comes supplied with 12 dry training condoms and a carrying bag, giving instructors everything needed to run a complete training session immediately.

Ideal for sex education programs, whether in schools, colleges, community health initiatives, or clinical training settings where safe-sex practices need to be taught clearly and confidently.
