SKU:

Categories: Nutrition Education

Product Description

Capture viewers' undivided attention with this clever divided model. One half represents healthy blood glucose and A1C levels by depicting a small number of glucose particles and a red blood cell model that has few glucose particles attached to it. In contrast, the model's other red blood cell contains excess glucose particles and floats through simulated plasma full of glucose particles, representing high A1C and blood glucose levels. Model is 11½" x 2½". Includes informative, bilingual (English/Spanish) tear pad. 100 sheets per pad.

A1C Levels: An Inside Look Model for Diabetes Patient Education in India

The A1C Levels: An Inside Look Model (Item No. 1020784, Brand: WRS Group) is a divided demonstration model designed to make blood glucose and A1C levels visually intuitive for patients and

students.

One half of the model represents healthy blood glucose and A1C levels, showing a small number of glucose particles and a red blood cell with few glucose particles attached. The other half shows a red blood cell carrying excess glucose particles, floating through simulated plasma saturated with glucose particles — representing high A1C and blood glucose levels. The side-by-side contrast is designed to hold viewer attention and make the concept of glycemic control immediately visible.

Specifications: Model size 11½" x 2½". Weight 1.8kg. Includes a bilingual (English/Spanish) tear pad, 100 sheets per pad.

Why Buy from SEM Trainers? SEM Trainers & Systems has supplied medical simulation and health education equipment to 1,500+ institutions across 28 Indian states for over 30 years, with pan-India delivery and dedicated after-sales support.

FAQ

Q: What does this model demonstrate? A: A side-by-side comparison of healthy versus elevated A1C and blood glucose levels, using a divided red blood cell and glucose particle design.

Q: What's included with the model? A: A bilingual (English/Spanish) tear pad with 100 sheets for patient handouts.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
