SKU:

Categories: Drug and Alcohol Education

Product Description

This colorful poster presents a variety of information about dependency on drugs. Consumption, effects, risks and possible long term of effects of several types of drugs are discussed on this poster. This anatomy poster is a great educational tool for teaching about drug dependence. This thickly laminated anatomical chart is printed on premium glossy (200 g) UV resistant paper and comes with 2 sided lamination (75 micron). It comes in a convenient poster size 50 x 67 cm (20x26") and can be written on and wiped off with non permanent markers. The 75 micron lamination ensures the chart does not curl up at the edges and the UV treatment ensures the chart does not get a faded yellow color

over time.

Drug Dependence Chart (VR1781L) — Consumption, Effects & Risks Teaching Poster

The Drug Dependence Chart (Item No. 1001618 [VR1781L], 0.15 kg) by 3B Scientific, Germany is a colorful poster presenting a variety of information about dependency on drugs, covering consumption, effects, risks, and possible long-term effects of several types of drugs.

Durable, dry-erase-ready construction. This thickly laminated chart is printed on premium glossy 200g UV-resistant paper with two-sided 75-micron lamination — durable enough to be written on and wiped off with non-permanent markers, making it useful for interactive teaching sessions rather than a static display-only poster.

Built to last without fading or curling. The 75-micron lamination keeps the chart from curling at the edges over time, while the UV treatment prevents it from developing a faded yellow tint — giving institutions a chart that stays classroom-ready for years, not months.

Size: 50 × 67 cm (20 × 26").

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of 3B Scientific products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Can this chart be written on? A: Yes — thanks to its two-sided 75-micron lamination, it can be written on and wiped off with non-permanent markers, useful for interactive lessons.

Q: What topics does it cover? A: Consumption, effects, risks, and possible long-term effects of several types of drugs.

Q: Will it fade or curl over time? A: No — UV-resistant printing prevents fading, and the 75-micron lamination keeps the edges from curling.
