different stages of development are featured in two breasts • A healthy breast is supplied for comparison • Supplied with base and talcum powder

Breast Self-Examination Model, Three Single Breasts on Base (3B Scientific) for India

The Breast Self-Examination Model, Three Single Breasts on Base (Item No. 1000344 [L55], Brand: 3B Scientific) is a highly realistic natural casting of three different female breasts in C and D cup sizes, built for hands-on breast examination training.

Made from 3B SKINlike™ high-quality silicone, the model reproduces skin texture in fine detail and feels genuinely realistic and lifelike to the touch, having been dermatologically tested. Two of the three breasts feature benign and malignant tumors at different stages of development, while the third is a healthy breast supplied for direct comparison — giving trainees a concrete reference point for what a normal exam should feel like against an abnormal one. Supplied with a base and talcum powder.

Specifications: Dimensions 52 x 24.5 x 9.5cm. Weight 2.5kg.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of 3B Scientific products in India with over 30 years of experience supplying anatomical models and women's health education equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

FAQ

Q: What makes the tumors on this model useful for training? A: Benign and malignant tumors are featured at different stages of development across two breasts, with a healthy third breast for direct comparison.

Q: Is the model realistic to the touch? A: Yes — it's made from 3B SKINlike™ silicone and has been dermatologically tested for a genuinely realistic feel.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
