Product Description

New **anatomy app** called 3B Smart Anatomy now included for FREE with Female Pelvis Skeleton Model with Ligaments, Muscles & Organs, 4 part. Every original 3B Scientific anatomy model now includes these additional **FREE features**:

- Free access to the **anatomy course** 3B Smart Anatomy, hosted inside the award-winning Complete Anatomy app by 3D4Medical
- The 3B Smart Anatomy course includes **23 digital anatomy lectures**, 117 different virtual anatomy models and 39 anatomy quizzes to test your knowledge
- Bonus: **FREE warranty upgrade from 3 to 5 years** with every product registration

Female Pelvis Skeleton Model with Ligaments, Muscles & Organs, 4-Part (3B Scientific) for Women's Health Education in India

The Female Pelvis Skeleton Model with Ligaments, Muscles & Organs, 4-Part (Item No. 1000287 [H20/3], Brand: 3B Scientific) is a life-size model showing the full topography of pelvic bones, ligaments, pelvic floor muscles, and female pelvic organs together — the most complete model in this pelvic anatomy series.

The right half shows the pelvic bones with ligaments intact, while the left half adds the pelvic floor muscles: levator ani, ischiocavernosus, deep and superficial transverse perineal, external anal sphincter, and external urethral sphincter. A partially removable bulbospongiosus reveals the vestibular bulb and Bartholin gland — structures that are genuinely difficult to visualize without a physical model. A removable midsagittal section through the urinary bladder, vagina, uterus, and rectum shows how these organs relate to the pelvic floor muscles and their respective openings for the urethra, vagina, and rectum, giving a complete gynecological picture in one integrated model.

Includes free access to 3B Smart Anatomy: 23 digital anatomy lectures, 117 virtual anatomy models, and 39 quizzes via the Complete Anatomy app, plus a warranty upgrade from 3 to 5 years on product registration.

Specifications: Dimensions 19 x 27 x 19cm. Weight 1.755kg.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of 3B Scientific products in India with over 30 years of experience supplying anatomical models and women's health education equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

FAQ

Q: What does the removable midsagittal section show? A: The relationship between the urinary bladder, vagina, uterus, and rectum, and how they connect to the pelvic floor muscles through their openings.

Q: What pelvic floor muscles are included? A: Levator ani, ischiocavernosus, deep and superficial transverse perineal, external anal sphincter, and external urethral sphincter.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.

TIP: You will also receive access to a **free 3-day trial to all premium features** of the Complete Anatomy app when you sign up for your 3B Smart Anatomy course. To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. [Click here](#) to learn more. 4 part This life size four part model of a female pelvis represents detailed information about the topography of bones, ligaments, pelvic floor muscles and female pelvic organs. The right half shows the bones with pelvic ligaments. In addition, the left half of the pelvis contains the muscles of the pelvic floor including levator ani, ischiocavernosus, deep and superficial transverse perineal, external anal sphincter, external urethral sphincter. A partially removable bulbospongiosus demonstrates the vestibular bulb and Bartholin gland. The removable midsagittal section through the urinary bladder, vagina, uterus and rectum demonstrates the relationship to the muscles of the pelvic floor within its openings for urethra, vagina and rectum. The female genital organs are detailed for gynecological and other anatomy studies. 3B Smart Anatomy explained in 90 seconds:
