Categories: Women's Health Education

Product Description

New **anatomy app** called 3B Smart Anatomy now included for FREE with Female Pelvis Skeleton Model with Ligaments, 3 part. Every original 3B Scientific anatomy model now includes these additional **FREE features**:

- Free access to the **anatomy course** 3B Smart Anatomy, hosted inside the award-winning Complete Anatomy app by 3D4Medical
- The 3B Smart Anatomy course includes **23 digital anatomy lectures**, 117 different virtual anatomy models and 39 anatomy quizzes to test your knowledge
- Bonus: **FREE warranty upgrade from 3 to 5 years** with every product registration

Female Pelvis Skeleton Model with Ligaments, 3-Part (3B Scientific) for Women's Health Education in India

The Female Pelvis Skeleton Model with Ligaments, 3-Part (Item No. 1000286 [H20/2], Brand: 3B Scientific) is a life-size, original cast of a bony female pelvis, showing two hip bones, the pubic symphysis, the sacrum and coccyx, and the fifth lumbar vertebra with intervertebral disc.

A midsagittal section through the fifth lumbar vertebra, sacrum, and coccyx allows both halves of the pelvis to be disassembled, revealing part of the cauda equina within the vertebral canal — the left half of the fifth lumbar vertebra is removable for closer study. The right half of the model additionally shows nine key pelvic ligaments: the inguinal, sacrotuberous, sacrospinous, anterior sacroiliac, iliolumbar, anterior longitudinal, interosseous sacroiliac, and posterior sacroiliac ligaments, plus the obturator membrane. This level of ligament detail makes it a genuinely thorough teaching tool for pelvic anatomy, well beyond a bare-bone skeletal model.

Includes free access to 3B Smart Anatomy: 23 digital anatomy lectures, 117 virtual anatomy models, and 39 quizzes via the Complete Anatomy app, plus a warranty upgrade from 3 to 5 years on product registration.

Specifications: Dimensions 19 x 27 x 19cm. Weight 1.8kg.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of 3B Scientific products in India with over 30 years of experience supplying anatomical models and women's health education equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

FAQ

Q: What ligaments does this model show? A: Nine key pelvic ligaments including the inguinal, sacrotuberous, sacrospinous, and sacroiliac ligaments, plus the obturator membrane, on the right half of the model.

Q: How is the model disassembled for study? A: A midsagittal section through the fifth lumbar vertebra, sacrum, and coccyx separates the pelvis into two halves, revealing part of the cauda equina.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.

TIP: You will also receive access to a **free 3-day trial to all premium features** of the Complete Anatomy app when you sign up for your 3B Smart Anatomy course. To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. [Click here](#) to learn more. This life size three part model represents an original cast of a bony female pelvis with ligaments and shows all the details of the following anatomical structures:

- Two hip bones
- the pubic symphysis
- the sacrum and the coccyx
- the fifth lumbar vertebra with intervertebral disc

A midsagittal section through the fifth lumbar vertebra, sacrum and coccyx, allow both halves of the pelvis to be disassembled revealing a part of the cauda equina in the vertebral canal. The left half of the fifth lumbar vertebra is removable. The right half of the model shows the following pelvic ligaments:

- inguinal ligament
- sacrotuberous ligament
- sacrospinous ligament
- anterior sacroiliac ligaments
- iliolumbar ligament
- anterior longitudinal ligament
- interosseous sacroiliac ligament
- posterior sacroiliac ligament
- obturator membrane

This anatomically detailed model is a great way to teach and learn the anatomy of the human female pelvis. 3B Smart Anatomy explained in 90 seconds:
