Product Description

Desktop simulator for training and demonstration of: • Introduction and removal of a diaphragm, an IUD or sponge contraception devices • Normal and abnormal uterine positions • Bi-manual examination technique The family planning educator supplied with: • One anteverted uterus with clear upper half to illustrate correct position of IUD • One uterus to illustrate normal anteversion and retroversion • Cervix with patent os attaches to uterus suspended within pelvic cavity • Soft plastic stomach cover • Carrying bag

Family Planning Educator for Reproductive Health & Clinical Training in India

The Family Planning Educator (Item No. 1005784 [W45009]) [BRAND: NOT LISTED — CONFIRM BEFORE PUBLISHING] is a desktop simulator built for training and demonstration of diaphragm, IUD,

and sponge contraception device insertion and removal, alongside normal and abnormal uterine positioning and bi-manual examination technique.

The set includes an anteverted uterus with a clear upper half, letting trainees see the correct IUD position directly rather than only imagining it from a diagram. A second uterus demonstrates normal anteversion and retroversion for comparison, and the cervix with a patent os attaches to the uterus suspended within the pelvic cavity — giving a genuinely realistic setup for bi-manual examination practice. A soft plastic stomach cover completes the external appearance for a more complete clinical simulation.

Set includes: Anteverted uterus (clear upper half), second uterus (normal anteversion/retroversion), cervix with patent os, soft plastic stomach cover, carrying bag.

Specifications: Dimensions 25.4 x 25.4 x 25.4cm. Weight 1.792kg.

Why Buy from SEM Trainers? SEM Trainers & Systems has supplied medical simulation and reproductive health/family planning education equipment to 1,500+ institutions across 28 Indian states for over 30 years, with pan-India delivery and dedicated after-sales support.

FAQ

Q: What contraceptive devices can be practiced with this simulator? A: Diaphragm, IUD, and sponge contraception device insertion and removal.

Q: What clinical skills does this support beyond device placement? A: Bi-manual examination technique and recognizing normal vs. abnormal uterine positions.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
