Product Description

The real benefits of physical activity are easy to see with this interactive 3-D display. Its four swiveling panels show rewards of an active lifestyle on one side (strong muscles, healthy arteries, healthy joints, and reduced body fat) contrasted with consequences of a sedentary lifestyle on the other side (muscle

loss, diseased arteries, osteoarthritis, and increased body fat). Can be used as a tabletop display or mounted on a wall. 26 1/2" x 13" x 5 1/4"

Benefits of Physical Activity 3-D Display for Health Education in India

The Benefits of Physical Activity 3-D Display (Item No. 1018301 [W43148], Brand: WRS Group) is an interactive display with four swiveling panels, making the case for an active lifestyle immediately visible and tactile.

Flip each panel to compare rewards of an active lifestyle — strong muscles, healthy arteries, healthy joints, and reduced body fat — against the consequences of a sedentary one: muscle loss, diseased arteries, osteoarthritis, and increased body fat. The side-by-side, panel-by-panel format lets trainees engage directly rather than just reading a static comparison. The display works as either a tabletop unit or a wall-mounted display, depending on the space available.

Specifications: Dimensions 26½" x 13" x 5¼". Weight 3.8kg. [DIMENSIONS FIELD ON SITE SHOWS 0x0x0 — NEEDS CORRECTION BEFORE PUBLISHING]
