Product Description

This 3-D display graphically shows many of the negative health consequences of an inactive lifestyle. Each permanently mounted, handpainted model has a brief description of the consequences it represents. Display is contained within its own sturdy carrying case. 28" x 27" opened. Same "0 x 0 x 0 cm" placeholder-dimensions bug, consistent with the pattern across this whole WRS Group product line.

DESCRIPTION (copy-paste into WordPress):

Consequences of An Inactive Lifestyle 3D Display (W43147) — Hand-Painted Sedentary Lifestyle Health Impact Display

The Consequences of An Inactive Lifestyle 3D Display (Item No. 1018300 [W43147], 4.098 kg) by WRS Group graphically shows many of the negative health consequences of an inactive lifestyle, giving viewers a direct, visual understanding of the real health costs of sedentary living.

Hand-painted models paired with clear explanations. Each permanently mounted, handpainted model includes a brief description of the consequence it represents — combining visual impact with concise educational context, so viewers immediately understand what they're looking at and why it matters.

Portable and self-contained. The display is housed within its own sturdy carrying case, making it easy to transport between classrooms, health fairs, or community outreach events.

Size: 28" × 27" opened.

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: What does this display show? A: Multiple hand-painted models depicting the negative health consequences of an inactive lifestyle, each with a brief accompanying description.

Q: Is it portable for outreach events? A: Yes — it comes housed in its own sturdy carrying case, sized 28" × 27" when opened.
