Categories: Pregnancy and Childbirth Education

Product Description

With handpainted 3D models, this easel graphically demonstrates cervical dilation from 1 cm to 8 cm. The 1-, 2-, 3-, and 4-cm models allow users to feel the softening and thinning of the cervix. Sets up as a tabletop display or hangs on a wall. Comes with protective felt cover. 9" x 12"

Cervical Dilation Easel Display for Pregnancy & Childbirth Education in India

The Cervical Dilation Easel Display (Item No. 1012488 [W43093], Brand: WRS Group) uses hand-painted 3-D models to graphically show cervical dilation progressing from 1cm to 8cm.

The 1-, 2-, 3-, and 4-cm models are specifically designed to be touched, letting trainees feel the softening and thinning of the cervix directly rather than only seeing it illustrated — a meaningful

addition for hands-on midwifery and nursing education. The display sets up as either a tabletop unit or wall-mounted display, and comes with a protective felt cover for storage between uses.

Specifications: Easel size 9? x 12?. Weight 0.728kg. [DIMENSIONS FIELD ON SITE IS MISSING — NEEDS 9"x12" ADDED BEFORE PUBLISHING]

Why Buy from SEM Trainers? SEM Trainers & Systems has supplied medical simulation and pregnancy/childbirth health education equipment to 1,500+ institutions across 28 Indian states for over 30 years, with pan-India delivery and dedicated after-sales support.

FAQ

Q: What dilation stages does this display cover? A: 1cm to 8cm, with the 1-, 2-, 3-, and 4-cm models designed to be touched so trainees can feel cervical softening and thinning directly.

Q: How is the display used? A: As a tabletop display or wall-mounted display, with a protective felt cover for storage.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
