SKU:

Categories: Parenting Education

Product Description

An infant's vulnerability to shaken baby syndrome (SBS) is powerfully demonstrated with this model. The model's translucent head allows viewers to see how a baby's brain can be harmed. Also emphasizes the importance of supporting an infant's neck. Helps teach prevention of SBS, which can have devastating consequences including permanent brain damage, blindness, and death. Model is

19" long. [SBS tear pad also available separately \(W43117TP\)](#).

Shaken Baby Demonstration Model for Parenting & Infant Safety Education in India

The Shaken Baby Demonstration Model (Item No. 1017928 [W43117], Brand: WRS Group) powerfully demonstrates an infant's vulnerability to Shaken Baby Syndrome (SBS) for parent and caregiver education.

The model's translucent head lets viewers directly see how shaking can harm a baby's brain, while also reinforcing the importance of properly supporting an infant's neck during handling. This visual, tactile approach helps caregivers understand SBS prevention and its serious potential consequences — including permanent brain damage, blindness, and death — in a way that abstract warnings alone often can't convey. Model measures 19" in length. A companion SBS tear pad is also available separately for take-home reinforcement — ask your SEM Trainers representative for details.

Specifications: Dimensions 60 x 31.4 x 22.2cm. Weight 1.7kg. Length 19".

Why Buy from SEM Trainers? SEM Trainers & Systems has supplied medical simulation and health/parenting education equipment to 1,500+ institutions across 28 Indian states for over 30 years, with pan-India delivery and dedicated after-sales support.

FAQ

Q: What does the translucent head show? A: How shaking can harm a baby's brain, giving caregivers a direct visual understanding of SBS risk.

Q: Is a companion educational handout available? A: Yes — an SBS tear pad is available separately; contact SEM Trainers for details.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
