C-Section Fetal Extraction Trainer – C-Celia

Item No. 1022559
Weight 38kg
Dimensions 60 x 50 x 27 cm
Brand Operative Experience Inc.
MPN: OB-500-2000
Previous Item No. 1021386

SKU:

Categories:Gynecology

Product Description

Extremely **realistic obstetric simulator for fetal extractions at Cesarean deliveries:** Obstetric surgery skills and procedural training can be true-to-life with the C-Celia suite of birthing simulators. The material used in the simulator feels life-like (no hard plastics), is very durable and easy to clean. The Fetal Extraction Simulator **features:**

- Open (post C-section) abdomen simulator to imitate a **true-to-life experience** for difficult fetal extractions at Cesarean deliveries
- Post C-section: Low-transverse incision and uterus with a low transverse hysterotomy enable **various extraction maneuvers and techniques** including suction assist and forceps
- Extremely **durable material** supports countless delivery trainings

- **Realistic anatomy enables hands-in-the-body simulation**

Fetal extraction methods to assist with the Cesarean delivery include:

- Manual delivery utilizing fundal pressure
- Vacuum assisted extraction
- Forceps extraction

Difficult fetal presentations can be manually positioned by the instructor to simulate the fetal extraction scenario that needs to be trained by the obstetricians and the medical team. Common difficult C-section fetal extraction scenarios include for example:

- Cord prolapse
- Single footling breech
- Prolapsed arm
- Triple nuchal cord
- Transverse lie

Delivery content:

- Lubricant gel
- 1 set of twin babies
- Open abdomen C-section simulator and uterus

C-Celia Feature Comparison: The following guide gives you an overview of C-Celia's obstetric simulation features for difficult Cesarean deliveries.

<u>C-Celia: Complete Obstetric Training System for Cesarean Deliveries</u>				
	<u>Obstetric Simulator for Complete Cesarean Delivery 1022567</u>	<u>Obstetric Simulator for Fetal Extractions at Cesarean Deliveries 1022559</u>	<u>Obstetric Simulator for Postpartum Hemorrhage (PPH) Control 1022561</u>	<u>Obstetric Simulator for Cesarean Emergency Hysterectomy 1022564</u>
C-section delivery stage:	Pregnant abdomen, pre C-section	Open abdomen with transverse Cesarean incision	Open, post C-section delivery abdomen	Open, post C-section delivery abdomen

<p>Cesarean delivery skills trained:</p>	<p>Emergency Cesarean delivery with:</p> <ul style="list-style-type: none"> • Full transverse (Pfannenstiel incision) C-section • Vertical emergency C-section (running from the umbilicus to the symphysis pubis) <p>C-Section through abdominal wall and uterus with incisions through:</p> <ul style="list-style-type: none"> • Abdominal wall • Muscle • Fascia • Linea alba • Uterus • Amniotic sack 	<p>Difficult Cesarean delivery maneuvers:</p> <ul style="list-style-type: none"> • Manual delivery utilizing fundal pressure • Vacuum assisted extraction • Forceps extraction 	<ul style="list-style-type: none"> • Management of Postpartum Hemorrhage (PPH) after Cesarean delivery • Repair of complex lacerations and uterine artery injuries • Supports PPH control techniques like Bakri Balloon, B-Lynch suture, Hayman suture and O-Leary Stitch • Surgical PPH control: Compressive uterine sutures, uterine artery ligation, hypogastric artery ligation • Non-surgical PPH control: uterine fundal massage, bimanual uterine massage, uterine packing, uterine tamponade, external aortic compression 	<p>Postpartum and Caesarean hysterectomy:</p> <ul style="list-style-type: none"> • Hemorrhage control • Clamping and cutting of uterine art • Fully operable removal of uterus
<p>Obstetric simulator features:</p>	<ul style="list-style-type: none"> • Includes twin babies (with umbilical cord and placenta) • Simulated amniotic fluid 	<ul style="list-style-type: none"> • Includes twin babies (with umbilical cord and placenta) 	<ul style="list-style-type: none"> • Integrated pressurized bleeding and lubrication system 	<ul style="list-style-type: none"> • Contains uterus, bladder, ureters and detailed representation of uterine arteries

Why Choose the C-Section Fetal Extraction Trainer C-Celia for Your Simulation Lab in India? The C-Section Fetal Extraction Trainer C-Celia from 3B Scientific is a trusted training tool used across simulation labs in India for hands-on cesarean section training practice. This simulator helps medical students and healthcare professionals build critical competencies in a safe, controlled environment — fully aligned with NMC's CBME curriculum for obstetrics and gynecology practical training. Who Is This

Simulator Ideal For? This product is recommended for obstetrics and gynecology departments, nursing colleges with midwifery programs, and government hospitals mandated to provide EmOC (Emergency Obstetric Care) training. Whether you are setting up a new simulation lab or upgrading your existing facility, the C-Section Fetal Extraction Trainer C-Celia offers an excellent balance of realism, durability, and training value. Why Buy from SEM Trainers? SEM Trainers is a leading supplier of medical manikins and simulators across India. Authorized 3B Scientific distributor in India. We provide complete support including pan-India delivery, on-site installation, faculty training workshops, and prompt after-sales maintenance. All our products carry genuine manufacturer warranty and meet ISO 9001 quality standards. Frequently Asked Questions Q: Is the C-Section Fetal Extraction Trainer C-Celia compliant with NMC simulation lab requirements? A: Yes, this simulator supports the skill-based training competencies specified under NMC's CBME framework for Indian medical and nursing institutions. Q: Does SEM Trainers provide installation and training support? A: Absolutely. We offer on-site installation, hands-on demo sessions, and faculty orientation workshops for every product delivered, anywhere in India. Q: What is the warranty and how do I get support? A: All products come with standard manufacturer warranty. For support, reach us at sem@semtrainers.com or call +91-88495 63724.
