**SKU:**

**Categories:** Airway Management Adult

## Product Description

The **Outer Torso Covering & Face** is a genuine replacement accessory designed specifically for the **HAL Adult Airway & CPR Trainer** (Item No. 1019856 / W45156), available from SEM Trainers & Systems. This replacement component helps maintain the realistic appearance and structural integrity of the trainer manikin, ensuring continued high-quality simulation for airway management and CPR training sessions.

Built for durability and anatomical realism, this outer covering encompasses both the torso and face sections of the trainer, making it an essential consumable for medical institutions, nursing schools, hospitals, and emergency response training centers that rely on the HAL Adult Airway & CPR Trainer for hands-on practice.

**Q1. What is the Outer Torso Covering & Face used for?** A: It is a replacement outer covering for the torso and face sections of the HAL Adult Airway & CPR Trainer (1019856 / W45156), used to restore the manikin's appearance and functionality after extended training use.

**Q2. Which trainer model is this product compatible with?** A: It is compatible with the HAL Adult Airway & CPR Trainer, models 1019856 and W45156.

**Q3. What does this product include?** A: The product includes the outer torso covering along with the face component, serving as a combined replacement for the manikin's exterior.

**Q4. What is the weight of this product?** A: The product weighs 0.99 kg.

**Q5. Why should the outer torso covering be replaced?** A: With repeated use in training scenarios — including CPR compressions and airway management procedures — the outer covering experiences wear and tear. Regular replacement ensures the manikin retains its realistic feel and appearance, which is critical for effective simulation training.

**Q6. Is this product sold by SEM Trainers in India?** A: Yes, it is available through SEM Trainers & Systems. You can contact them at +91-88495 63724 or +91-98791 03905, or submit an enquiry through their website.

**Q7. Can this component be installed without professional help?** A: This is a standard replacement part designed for the HAL Adult Airway & CPR Trainer. It is recommended to follow the manufacturer's guidelines or consult the product brochure (available for download on the product page) for proper installation instructions.

**Q8. Are there other related accessories available?** A: Yes, related products include the HAL Adult Airway & CPR Trainer, Replacement Lungs/Stomach, AirSim Advance X, and the Critical Airway Management Trainer — all available on the SEM Trainers website.
