SKU:

Categories: Suturing and Bandaging

Product Description

The double-sided skin pad is a replacement part for the surgical suture trainers W19321 and W19311. 11x14 cm

Why Choose the Double-Sided Skin Pad for Surgical Skin Suture Trainer for Your Simulation Lab in India?

The Double-Sided Skin Pad (Item No. 1005133 / W19310, MPN: SSP004) by Pharmabotics Limited is a 0.172 kg, 11 × 14 cm genuine OEM replacement skin pad for the Pharmabotics surgical suture trainers W19321 and W19311 — the consumable wear component of these trainers that absorbs suture needle punctures, incisions, and tissue handling during suturing technique practice. The double-

sided design provides two distinct skin surfaces on a single pad, effectively doubling the number of suturing sessions per pad before replacement is required — reducing consumable cost per training session compared to single-sided pads of the same dimensions.

For surgical skills training programmes, medical colleges, nursing institutes, and NMC-mandated clinical skills labs in India that run regular suturing technique training on the W19321 or W19311 Pharmabotics suture trainers, maintaining a stock of genuine OEM SSP004 replacement pads ensures training is never interrupted by a fully used-up pad. The skin pad is the component that provides the correct tissue resistance and needle passage feedback that makes suturing technique training clinically meaningful — only genuine OEM pads are guaranteed to replicate the original material compliance and puncture resistance of the trainer's design, ensuring that trainees develop correct needle handling force and tissue manipulation habits during practice.

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying medical simulators and genuine OEM accessories to 1,500+ institutions across 28 states in India. We provide pan-India delivery and dedicated after-sales support.

Q: Which suture trainers is this pad compatible with? A: The W19321 and W19311 Pharmabotics surgical suture trainers. Confirm your trainer model before ordering.

Q: What does "double-sided" mean? A: The pad has two usable sides — when one side is fully used, the pad is flipped to use the second side, doubling the training sessions per pad before replacement.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
