Product Description

For use with Life/form® Auscultation Trainer and Smartscope™, W44119, and Life/form® Auscultation Trainer and Smartscope™ and Amplifier/Speaker System, W44119P

Additional Remote Control for the Life/form® Auscultation Trainer — Keep Multiple Stations Running

The Additional Remote Control (Item No. LF01148U, 0.1 kg) by Nasco Healthcare, USA is a spare/replacement remote for the Life/form® Auscultation Trainer and Smartscope™ (W44119) and the Life/form® Auscultation Trainer and Smartscope™ with Amplifier/Speaker System (W44119P). It lets institutions running multiple auscultation stations, or replacing a lost/damaged remote, keep training sessions running without downtime on the core electronics.

This is a low-cost, lightweight accessory suited to skills labs that want a backup remote on hand so a single misplaced unit doesn't take a station out of service during a scheduled session.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and auscultation training accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: What is this compatible with? A: The Life/form® Auscultation Trainer and Smartscope™ (W44119) and the version with Amplifier/Speaker System (W44119P).

Q: Do I need to buy one per station, or is one spare enough for a lab? A: Most labs keep one or two spares per site rather than one per unit — confirm your training volume with SEM Trainers to size this correctly.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
