Product Description

DESCRIPTION (copy-paste into WordPress):

Why Choose the Acute Myo-Infarcts Massive Anterior Sound Menu for Your Simulation Lab in India?

The Acute Myo-Infarcts Massive Anterior Sound Menu (Item No. 1018188 / W49415, MPN: ST2M-48, 0.07 kg, 16 × 7 × 2 cm) by Nasco Healthcare, USA is a 16-lead auscultation training card for the W49407 simulator, focused on massive anterior myocardial infarction presentation. The card is organized around standard ECG lead groupings (I, II, III, and precordial leads V2–V6) across sinus bradycardia, sinus arrhythmia, and related infarct-associated rhythm presentations — giving trainees

exposure to how anterior MI alters heart sounds across different auscultation points.

For cardiology training centres, ICU/CCU nursing programmes, and NMC-mandated simulation labs in India, this menu card supports focused training on recognizing massive anterior infarct presentations, complementing broader ACLS rhythm libraries with a lead-specific auscultation exercise.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and auscultation training accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: Which simulator is this compatible with? A: The W49407 auscultation simulator by Nasco Healthcare. Confirm compatibility before ordering.

Q: What does this menu card cover? A: Heart sounds across standard auscultation leads (I, II, III, V2–V6) associated with massive anterior myocardial infarction presentation, including sinus bradycardia and sinus arrhythmia variants.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
