SKU:

Categories:Auscultation

Product Description

Why Choose the CCU/ICU II Sound Menu for Your Simulation Lab in India?

The CCU/ICU II Sound Menu (Item No. 1018185 / W49412, MPN: ST2M-42, 0.07 kg, 16 × 7 × 2 cm) by Nasco Healthcare, USA is a 16-sound critical care auscultation card for the W49407 simulator, built around the deteriorating rhythm patterns nurses and residents must recognize in CCU and ICU settings.

The card moves through a clinically realistic progression: intraventricular conduction delay and sinus tachycardia, SA and AV block variants at increasing severity, supraventricular arrhythmias including atrial flutter and atrial fibrillation, and finally the ventricular emergencies that define a code situation — PVCs, ventricular tachycardia, ventricular escape rhythm, accelerated ventricular rhythm, ventricular

flutter, and asystole. This structure mirrors the real deterioration pattern trainees need to recognize and act on quickly in a critical care setting, making it well suited to CCU/ICU nursing orientation, code team training, and critical care residency programs.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and auscultation training accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: Is there a "CCU/ICU I" card as well? A: Please contact SEM Trainers to confirm current availability of a companion CCU/ICU I card.

Q: Which simulator is this compatible with? A: The W49407 auscultation simulator by Nasco Healthcare.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.

CCU/ICU II Sound Menu - Auscultation Sounds for W49407

1. NSR with IVCD
2. Sinus tachycardia
3. 2nd SA Block - type 1
4. SV premature
5. SV tachycardia
6. SV tachycardia
7. Atrial flutter, 2:1
8. Atrial fibrillation, IVCD
9. 2nd AV, conduction delays
10. 2nd AV, high grade
11. PVCs
12. Ventricular tachycardia
13. Ventricular escape rhythm
14. Accelerated ventricular
15. Ventricular flutter
16. Asystole
