Product Description

For use with Life/form® auscultation simulators.

SmartScope — Electronic Stethoscope Accessory for Life/form® Auscultation Simulators

The SmartScope (Item No. LF01144U, 0.6 kg) by Nasco Healthcare, USA is an electronic stethoscope accessory built for use with Life/form® auscultation simulators. It's designed specifically for the Life/form ecosystem — a different product line from Cardionics' SimScope-based trainers also carried by SEM Trainers — so it's the right accessory for institutions already running Nasco Life/form manikins rather than Cardionics SAM- or SimShirt-based systems.

For simulation labs standardizing on Life/form auscultation trainers, SmartScope extends stethoscope-

based training compatible with that specific simulator line's sound and sensor system.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and auscultation training accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: Is SmartScope compatible with Cardionics SimScope-based trainers (SAM, SimShirt)? A: No — SmartScope is built for Nasco's Life/form® auscultation simulator line. Confirm your existing simulator brand and model with our team before ordering.

Q: What information do I need to confirm compatibility? A: Let us know which Life/form auscultation simulator model your institution uses, and we'll confirm fit before you order.
