Classroom Infrared Emitter™

Item No. 1021982
Brand Cardionics
MPN: 718-0015

[Read More](#)

SKU:

Categories: Auscultation

Product Description

The Classroom Infrared Emitter is designed to provide simultaneous listening for a classroom or simulation lab full of students. Many institutions find value in utilizing the Classroom Infrared Emitter with high-priced manikins and simulators, allowing each student greater interaction with the sounds of

the manikin or simulator. The Classroom Infrared Emitter can be utilized by any manikin or simulator with a sound output. Up to 30 students can interact with the Classroom Infrared Emitter while wearing HeartMan Infrared Headphones. The Classroom Infrared Emitter is line-operated. The sound clarity is very similar to a standard stethoscope. Product Features:

- Broadcasts sounds to larger audiences
- Excellent sound quality
- Utilizes Heartman Infrared Headphones
- Large number of applications
- Easy to set up and use
- Available for large and small auditoriums
- Up to 3 units can be daisy-chained for increased coverage

Why Choose the Classroom Infrared Emitter for Your Simulation Lab in India?

The Classroom Infrared Emitter (Item No. 1021982, Brand Cardionics, MPN: 718-0015) solves a common simulation lab problem: how does an entire class hear the same auscultation finding at once, without everyone crowding around one manikin sharing a single stethoscope? The emitter broadcasts sound from any manikin or simulator with a sound output to up to 30 students simultaneously, each wearing HeartMan Infrared Headphones, with sound quality comparable to a standard stethoscope.

For larger venues, up to 3 emitter units can be daisy-chained together for expanded coverage, making this suitable for both standard classrooms and larger simulation auditoriums. This pairs particularly well with high-value manikins and simulators already in your lab — like the W49407 or the Auscultation Trainer and Smartscope™ systems — letting more students interact with the same equipment during a single session instead of queuing one at a time.

Please confirm before ordering: operating voltage (for compatibility with Indian 230V mains) and whether HeartMan Infrared Headphones are included with this unit or need to be ordered separately for your expected class size.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Cardionics products in India with over 30 years of experience supplying medical simulators and auscultation training accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: Does this work with any manikin or simulator? A: Yes — any manikin or simulator with a sound output can be used with the Classroom Infrared Emitter.

Q: Are headphones included? A: Please confirm with SEM Trainers whether HeartMan Infrared Headphones are included or sold separately, and how many are needed for your class size.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing, availability, and to confirm voltage compatibility.
