SKU:

Categories: Airway Management Adult

Product Description

Adult intubation head and cricothyrotomy trainer featuring the uniquely constructed AirSim® airway with

3-year warranty enhanced with palpable cricoid landmarks, laryngeal cartilages and tracheal rings. Ideal for teaching & training intubation, BVM & all supraglottic devices plus needle and surgical cricothyroidotomy, percutaneous tracheostomy & laryngoscopy.

Model Features

- Innovative AirSim® airway with 3-year warranty & nasal cavity created from CT DICOM data
- Anatomically correct internal features & visually accurate landmarks in airway & nasal passage
- Wraparound replaceable neck skin rotates for 10-15 incisions
- Easy identification of sternal notch, tracheal rings & cricoid and laryngeal cartilages
- Inflatable tongue with lifelike texture can simulate edema
- Lung bag inflation indicates successful ventilation

Medical Procedure Training

- Needle and surgical cricothyroidotomy
- Percutaneous tracheostomy
- Double naso-tracheal intubation
- Bag-valve mask (BVM) ventilation techniques
- Full range of supraglottic device insertion
- Direct and video laryngoscopy including Sellick Maneuver
- Awake fiber optic examination
- Endotracheal tube insertion
- Combi tube insertion
- Naso gastric tube insertion techniques

Advanced Airway Management Training Manikin for Intubation, Tracheostomy & Cricothyrotomy

The AirSim Combo X is ideal for training in percutaneous tracheostomy and needle and surgical cricothyroidotomy. An inflatable tongue can be used to simulate edema. Realistic features include palpable cricoid landmarks, laryngeal cartilages and tracheal rings to provide positive user feedback and easy identification of the sternal notch. The AirSim Combo X airway manikin is compatible with a full range of supraglottic devices. We recommend the following equipment sizes for optimal performance:

- 7.0-7.5 mm ID for nasal intubation
- 8.0-9.0 mm ID for oral intubation

- Large / Size 6 for BVM ventilation mask
- Size 3-5 for LMA laryngeal masks
- Similar respective sizes for other supraglottic devices

Front of neck access trainer

Our AirSim Combo X model facilitates training in FONA airway management, including needle and surgical cricothyroidotomy and percutaneous tracheostomy. Ideal for emergency and anaesthesia clinicians needing to maintain proficiency in emergency front of neck airway techniques. Studies suggest that trained professionals can reduce complications by 25%, and training improves first-attempt success rates, which is critical in emergency settings ([Weiss, M., & Engelhardt, T., 2012](#))

DURABLE & REALISTIC INTUBATION MANIKIN

TruCorp intubation manikins are the most lifelike and hardworking airway trainers on the market today. Our commitment to innovation provides a more realistic training experience for improved patient outcomes. Every [medical manikin](#) is designed to withstand repeated use in a classroom setting for efficient training and higher value. Replacement parts interchange quickly and easily.
