HAL® Adult Multipurpose Airway Trainer and CPR Trainer

Item No. 1019856
Weight 14.73kg
Dimensions 76 x 56 x 30.5 cm
MPN: S315.100

[Read More](#)

SKU:

Categories: Airway Management Adult

Product Description

Using the HAL 1019856, train participants to recognize laryngospasm and if needed, perform an emergency tracheotomy or cricothyrotomy. Additionally, to improve CPR training, add the OMNI Code Blue Pack option to view real-time CPR quality feedback via the handheld OMNI controller and PC link

software. Product shown with optional OMNI system. Features

- Manually open or close eyes
- Realistic head tilt/chin lift and jaw thrust
- Durable lifelike airway anatomy
- Nasal and oral Intubation: ETT, LMA, King LT®
- Laryngospasm
- Tracheostomy and cricothyrotomy
- Chest rise with bag valve mask ventilation
- Gastric distension with esophageal intubation
- Right mainstem intubation presents unilateral chest rise
- CPR hand positioning landmarks and realistic chest compression recoil and depth
- Manually controlled palpable carotid pulses
- Carrying bag

Why Choose the Gaumard HAL® Adult Multipurpose Airway Trainer and CPR Trainer for Your Simulation Lab in India?

The Gaumard HAL® Adult Multipurpose Airway Trainer and CPR Trainer (Item No. 1019856, MPN: S315.100) by Gaumard Scientific, USA is 14.73 kg, 76 × 56 × 30.5 cm, and the second-tier configuration in the five-model HAL® adult training family — adding two clinically significant capabilities over the base HAL® Adult Airway and CPR Trainer (1019855): laryngospasm simulation and tracheostomy/cricothyrotomy training. These two additions make the 1019856 the correct choice for ATLS training centres, emergency medicine departments, and NMC-mandated simulation labs in India that need not only standard ACLS airway and CPR training but also difficult airway recognition and surgical airway rescue capability on the same manikin. The optional OMNI Code Blue Pack can be added to provide real-time CPR quality feedback via the handheld OMNI controller and PC link software — the manikin is shown with this optional system in product images but it is not included as standard.

The laryngospasm capability enables instructors to present a suddenly deteriorating airway mid-scenario, requiring trainees to recognise the condition and make the decision to escalate from failed intubation to surgical airway management. Tracheostomy and cricothyrotomy training directly follows — trainees practise the neck anatomy landmark identification and incision technique that both procedures require, on the same manikin where the laryngospasm scenario was created. This integrated workflow — laryngospasm leading to CICO leading to surgical airway — on a single platform is the clinical training sequence that makes 1019856 the correct upgrade from 1019855 for any programme where ATLS or advanced airway rescue is a curriculum requirement. All base features from 1019855 are retained: eyes open/close manually, realistic head tilt/chin lift/jaw thrust, ETT/LMA/King LT® nasal and oral intubation, right mainstem unilateral chest rise, gastric distension with oesophageal intubation, chest rise, CPR landmarks, manual carotid pulse generation, and carrying bag.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Gaumard Scientific products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support. All products carry genuine manufacturer warranty and meet ISO 9001 quality standards.

Frequently Asked Questions

Q: What does this model add over the HAL® Adult Airway and CPR Trainer (1019855)? A: Two capabilities: laryngospasm simulation and tracheostomy/cricothyrotomy training. All other features are identical between the two configurations.

Q: Is the OMNI Code Blue Pack included? A: No. The OMNI Code Blue Pack is an optional add-on for real-time CPR quality feedback. The product images show the manikin with the optional OMNI system. Contact us for pricing and availability: sem@semtrainers.com or +91-88495 63724.

Q: What is the warranty and how do I get support? A: All Gaumard products carry standard manufacturer warranty. For support, reach us at sem@semtrainers.com or call +91-88495 63724.
