Product Description

Developed especially for the aerospace industry and wing tank fuel cell rescue training, this regular sized Rescue Randy unit can be utilized in any confined space rescue scenario. **It exceeds the flexibility of regular Rescue Randy products** because both the waist and the head flex and twist to allow positioning the manikin under dashboards, in tight spots, and under things where the Regular Randy's will not go. Why Choose the Flexible Rescue Randy for Your Simulation Lab in India? The Flexible Rescue Randy from Simulaids is a trusted training tool used across simulation labs in India for hands-on flexible rescue training practice. This simulator helps medical students and healthcare professionals build critical competencies in a safe, controlled environment — fully aligned with NMC and Indian Resuscitation Council (IRC) guidelines for BLS and emergency care training. Who Is This Simulator Ideal For? This product is recommended for medical colleges, nursing schools, corporate first-aid training programs, and hospitals conducting BLS/ACLS certification as per AHA/IRC guidelines. Whether you are setting up a new simulation lab or upgrading your existing facility, the

Flexible Rescue Randy offers an excellent balance of realism, durability, and training value. Why Buy from SEM Trainers?
