SKU:

Categories:Water Rescue Training

Product Description

This manikin of an adolescent allows Coast Guards, Lifeguard Trainers and Emergency Personnel to train water rescue and retrieval as well as CPR for adolescents. The cpr manikin has articulated joints and is made of durable plastic and rust-resistant steel. When filled with water the manikin will

submerge to the neck, if an additional 3 kg (a brick will do) is added, it will sink completely.

CPR Water Rescue Manikin (Adolescent), 121 cm (Nasco Healthcare) for Combined Rescue & CPR Training in India

The CPR Water Rescue Manikin, Adolescent (Item No. 149-1329U, Brand: Nasco Healthcare, USA) combines water rescue and retrieval training with CPR practice in a single adolescent-sized manikin, letting Coast Guards, lifeguard trainers, and emergency personnel drill the full rescue-to-resuscitation sequence without switching equipment.

Built with articulated joints and constructed from durable plastic with rust-resistant steel components, the manikin withstands repeated submersion training. When filled with water, it submerges to the neck; adding roughly 3 kg of extra weight (such as a brick) sinks it fully for realistic full-submersion retrieval drills, after which trainees can transition directly into CPR practice on the same manikin.

Specifications: Dimensions 125 x 40 x 23 cm. Weight 11.5 kg. Brand: Nasco Healthcare, USA.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying emergency rescue and simulation training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

FAQ Q: How is this different from the standard Adolescent Water Rescue Manikin? **A:** This version adds CPR training capability, letting trainees practice resuscitation immediately after a simulated rescue, on the same manikin.

Q: How does the submersion feature work? **A:** Filled with water, the manikin submerges to the neck; adding about 3 kg of extra weight sinks it completely for full-submersion rescue drills.

Q: How do I order from SEM Trainers? **A:** Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
