Categories: Pediatric Patient Care

Product Description

PEDI® simulates a 1-year old and is another must for a well-equipped training program. These full-body manikins with articulating joints and soft, life-like skin have CPR capabilities via head tilt and chin lift. Airway management procedures such as oral/nasal nasogastric intubation or gastric suctioning can be also exercised. Intramuscular injection sites, lavage/gavage or simulated ear canal are only a few of their features.

PEDI® Nursing Care Patient Simulator, 1-Year-Old for Pediatric Nursing Skills Training in India

PEDI® (Item No. 1022063, MPN S115.M) simulates a 1-year-old and is a core addition to a well-equipped pediatric training program. This full-body manikin has articulating joints and soft, life-like skin, with CPR capability via head tilt and chin lift. Airway management procedures such as oral/nasal nasogastric intubation and gastric suctioning can also be practiced, alongside intramuscular injection sites, lavage/gavage, and a simulated ear canal.

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying pediatric nursing skills training equipment to 1,500+ institutions across 28 Indian states, with pan-India delivery and dedicated after-sales support.

FAQ Q: How does PEDI compare to the Multipurpose Patient Simulator? A: PEDI covers core CPR and airway management skills (chest rise, pulses, intubation, IO/IV access) but doesn't include the interchangeable genitalia, tracheostomy, or enema administration features of the Multipurpose and Mike & Michelle simulators.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
