SKU:

Categories:Advanced Trauma Life Support (ATLS)

Product Description

The Life/Form Pericardiocentesis Simulator is designed to teach the skills needed for this difficult procedure correctly. The simulator has a pressurized tension pneumothorax site and a site for the surgical placement of functional chest tube. Pericardiocentesis may be performed in the left subxiphoid space and in the left fifth intercostal space. Includes fluid reservoir bag, foot pump, surgical skin pads, subcutaneous surgical pads, nurse training pads, pneumothorax pads, blood powder, simulated pericardium, IV bag and hard carry case.
