Categories:ALS Adult

Product Description

Why Choose the Nursing Scenario Package for SMART STAT for Your Simulation Lab in India?

The Nursing Scenario Package for SMART STAT (Item No. 1018579, MPN: 101-456U) by Nasco Healthcare, USA is a ready-to-use clinical scenario library designed specifically for the Simulaids SMART STAT ALS simulator in nursing education and ward-based training contexts. Weighing 2.72 kg, it provides pre-built scenarios that allow nursing faculty and simulation coordinators to implement a structured simulation programme — or expand an existing one — immediately, without the time and expertise required to design scenarios from scratch. Each scenario comes with patient statistics and parameters pre-configured for the SMART STAT, enabling nursing departments in hospitals and nursing colleges across India to launch meaningful, objective-based patient simulation training on their

SMART STAT from day one.

The Nursing Scenario Package is the clinical nursing counterpart to the EMS Scenario Package (1018578) — while the EMS package focuses on pre-hospital field and transport contexts (cardiac arrest, trauma, haemorrhage), this nursing package addresses the ward, ICU, and clinical assessment contexts that nursing students and in-service nurses encounter: patient deterioration recognition, medication administration scenarios, vital signs monitoring with appropriate response, and nursing intervention decision-making using the SMART STAT's full capability set of pulse points, heart and lung sounds, blood pressure arm, and ECG. For nursing colleges in India required to meet NMC CBME competency benchmarks through simulation-based assessment, and for hospital nursing departments building in-service training programmes, this package eliminates the scenario development barrier to getting training underway. Each scenario's patient statistics also serve as building blocks for instructors to develop more advanced or institution-specific scenarios over time.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare and Simulaids products in India with over 30 years of experience supplying medical simulators and accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which SMART STAT simulators is this scenario package compatible with? A: This package is designed for use with the Simulaids SMART STAT Basic (101-8002) and SMART STAT Complete (101-8001) ALS simulators by Nasco Healthcare.

Q: How does this differ from the EMS Scenario Package (1018578)? A: The EMS Scenario Package (1018578) contains 10 pre-hospital field and transport scenarios for paramedic and emergency training. This Nursing Scenario Package (1018579) is designed for hospital ward, ICU, and clinical nursing training contexts, focusing on patient assessment, deterioration recognition, and nursing intervention scenarios.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724. We supply genuine Nasco Healthcare products with pan-India delivery.
