Why Choose the Charger for SMART STAT ALS Simulators for Your Simulation Lab in India?

The Charger for SMART STAT ALS Simulators (Item No. 1018577, MPN: 101-544U) by Nasco Healthcare, USA is the genuine OEM replacement charger for the Simulaids SMART STAT Basic and SMART STAT Complete ALS simulator. Weighing 0.57 kg, this is the correct, manufacturer-specified charger for keeping your SMART STAT simulator powered and ready for training — not a generic or third-party substitute. Using non-OEM chargers with sophisticated ALS simulators carries a real risk of inadequate charging cycles, battery damage, and voided warranty. Sourcing the genuine replacement from an authorized distributor is the only way to ensure continued safe operation and manufacturer warranty compliance.

The SMART STAT ALS simulator is a battery-operated platform used intensively in ALS training programmes, emergency medicine departments, paramedic institutes, and hospital simulation labs across India. A functioning charger is not optional equipment — it is what keeps the simulator operational between sessions. Whether the original charger has been lost, damaged, or has reached end of life, this genuine replacement restores full charging capability and ensures the SMART STAT continues to perform as intended by the manufacturer.
