Crisis Manikin Auscultation Kit

Item No. LF03967U

Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories: ALS Adult

Product Description

Do you already have a CRiSis™ Manikin? Upgrade with heart and lung sounds now! Provides everything needed to add heart and lung sounds to an existing CRiSis™ manikin. Includes upper torso, chest skin, remote, and SmartScope™.

Why Choose the CRiSis™ Manikin Auscultation Kit for Your Simulation Lab in India?

The CRiSis™ Manikin Auscultation Kit (Item No. LF03967U) by Nasco Healthcare, USA is the official upgrade kit that adds heart and lung sound auscultation capability to any existing CRiSis™ manikin. For simulation labs across India that already own a CRiSis™ platform without auscultation, this kit is the most cost-effective way to significantly expand clinical assessment training without replacing the entire manikin. The kit includes everything needed for the upgrade: a replacement upper torso, chest

skin, remote controller, and the SmartScope™ electronic stethoscope — providing everything needed to start running cardiac and pulmonary auscultation scenarios immediately after installation.

The addition of auscultation capability transforms the CRiSis™ from a pure resuscitation trainer into a more complete clinical assessment and ALS platform. Trainees can now practice recognising heart and lung sounds through the SmartScope™ at seven lung auscultation sites, integrating physical examination skills with ALS procedures in a single simulation scenario. This is directly relevant to NMC CBME competencies for clinical examination and physical diagnosis, and to ACLS scenario-based learning where patient assessment precedes and informs resuscitation decisions. The remote controller allows the instructor to select and change auscultation findings dynamically during a scenario — creating realistic, evolving clinical presentations that challenge trainees to reassess and adapt their management in real time.

This kit is the right choice for medical colleges, hospital simulation departments, and ACLS training centres across India that own an existing CRiSis™ manikin and want to add auscultation-based assessment training without capital expenditure on a new system.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and accessories to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation and SmartScope™ setup, and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which CRiSis™ manikin models is this auscultation kit compatible with? A: This kit is designed as an upgrade for existing CRiSis™ manikins that do not already include auscultation capability. It is listed as an optional add-on for the CRiSis™ Manikin, Complete Adult CRiSis™, Deluxe CRiSis™, Complete CRiSis™ with Advanced Airway Management, and CRiSis™ Torso configurations.

Q: What is included in the kit? A: The kit includes an upper torso replacement, chest skin, remote controller, and SmartScope™ electronic stethoscope — everything needed to add heart and lung sound auscultation at seven lung sites.

Q: What is the warranty and how do I get support? A: All Nasco Healthcare products carry standard manufacturer warranty. For support, reach us at sem@semtrainers.com or call +91-88495 63724.
