Zoll Training Cables with Adapters

Item No. LF03961U

Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories:ALS Adult

Product Description

The reusable defibrillation pad adapters are designed to be used in place of expensive defib gel pads. They come complete with patient simulator adapters that will enable you to use the patient simulator you already have with the CRiSis™ Manikin, CRiSis™ Manikin Update Package, or Defibrillation Chest Skin. The training cables to use with the CRiSis™ manikin are available with unique cable ends for use with the following defibrillators: Zoll, Survivalink, Vivalink, and Medtronic Physio Control Quick combo. If your defibrillator uses snap-on patches we also have the adapters you need to eliminate the use of pads. Training cables are not recommended for use with non-rechargeable battery AED. This includes FirstSave, HeartStream, and Medtronic Physio control with non-rechargeable lithium batteries. This

package will save you both time and money!

Why Choose the Life/form® Zoll Training Cables with Adapters for Your Simulation Lab in India?

The Life/form® Zoll Training Cables with Adapters (Item No. 1019785, MPN: LF03961U) by Nasco Healthcare, USA are reusable defibrillation pad adapters designed for use with Zoll defibrillators in conjunction with the Life/form® CRiSis™ Manikin, CRiSis™ Manikin Update Package, or Defibrillation Chest Skin. They replace single-use disposable defibrillation gel pads — which are expensive, must be restocked after every training session, and generate unnecessary consumable waste — with a durable, reusable cable-and-adapter system that allows the same Zoll defibrillator your department uses clinically to be used directly on the CRiSis™ manikin in training, session after session, without ongoing pad expenditure.

The training cables feature unique cable ends matched specifically to Zoll defibrillators, with patient simulator adapters that connect to the CRiSis™ defibrillation chest skin's two defibrillation pad sites. For departments using defibrillators with snap-on patches rather than standard pad connectors, compatible snap-on adapters are also available in this range. The reusable design eliminates the per-session consumable cost of gel pads across the entire training programme — a particularly significant saving for hospital in-service training departments and ACLS certification centres in India that run high-frequency defibrillation training sessions. One important compatibility note: these training cables are not recommended for use with non-rechargeable battery AEDs, including FirstSave, HeartStream, and Medtronic Physio Control models with non-rechargeable lithium batteries — the cable design is optimised for rechargeable defibrillators. For Survivalink, Vivalink, and Medtronic Physio Control Quick Combo defibrillators, separate training cable variants with the correct cable ends are available in the LF03 series.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which CRiSis™ components are these training cables compatible with? A: LF03961U is compatible with the Life/form® CRiSis™ Manikin, CRiSis™ Manikin Update Package, and Defibrillation Chest Skin by Nasco Healthcare. These cables connect your existing Zoll defibrillator to the CRiSis™ defibrillation chest.

Q: Can these cables be used with AEDs? A: No. These training cables are not recommended for use with non-rechargeable battery AEDs including FirstSave, HeartStream, and Medtronic Physio Control models with non-rechargeable lithium batteries. They are designed for rechargeable Zoll defibrillators

only.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724. We supply genuine Nasco Healthcare accessories with pan-India delivery.
