SKU:

Categories:BLS and CPR Accessories

Product Description

For use with Life/form® GERi™, KERi™, CPARLENE®, and CRiSis™ manikins. Made of canvas and has wheels.

Why Choose the Large Soft Carry Bag with Wheels for Full Body Simulators for Your Simulation

Lab in India?

The Large Soft Carry Bag with Wheels (Item No. LF03468) by Nasco Healthcare, USA is a 4.915 kg wheeled canvas carry bag compatible with the Life/form® GERi™, KERi™, CPARLENE®, and CRiSis™ full-body manikins — the lighter, wheeled alternative to the Hard Carry Case (1019725 / LF03465U) for the same manikin family. For simulation labs, nursing institutes, and BLS training centres in India that transport these manikins between training venues on flat surfaces — hospital corridors, training centre floors, vehicle transfer to boot — the wheeled canvas bag eliminates the need to carry the manikin's full weight and significantly reduces handling fatigue compared to non-wheeled soft bags.

Canvas construction makes this bag significantly lighter than the hard case at 4.915 kg empty — the combined manikin-plus-bag weight for transport is lower than the hard case equivalent, which matters for individual instructors transporting equipment without support staff. The wheels enable rolling transport across flat surfaces rather than lifting, making this the most ergonomic transport option for regular outreach training programmes where manikins travel frequently. For transport where road vibration and impact protection is required — vehicle boots, shared-load vehicles, long-distance freight — the hard case (LF03465U) is the appropriate upgrade. For within-building transport, outreach programmes on flat terrain, and routine training venue changeovers, this wheeled canvas bag is the most practical and ergonomic format. Both this bag and the hard case are genuine OEM Nasco Healthcare accessories sized specifically for the GERi™, KERi™, CPARLENE®, and CRiSis™ manikin platforms.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which manikins is this bag compatible with? A: This wheeled canvas bag (LF03468) is compatible with Life/form® GERi™, KERi™, CPARLENE®, and CRiSis™ full-body manikins by Nasco Healthcare.

Q: How does this differ from the Hard Carry Case (1019725)? A: This bag is lighter (4.915 kg vs 11.5 kg empty), has wheels for rolling transport, and is made of canvas rather than a rigid shell. For impact-protected transport, use the hard case. For within-building or flat-terrain rolling transport, this wheeled bag is the more ergonomic option.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724. We supply genuine Nasco Healthcare OEM accessories with pan-India delivery.
