Injection Site Replacement, Thigh für SMART STAT

Item No. 1018575 [W44192]**Weight** 0.281kg**MPN:** 101-441U / PP00441U / SB49388U[Read More](#)**SKU:****Categories:**ALS Adult

Product Description

Why Choose the Injection Site Replacement, Thigh for SMART STAT for Your Simulation Lab in India?

The Injection Site Replacement, Thigh for SMART STAT (Item No. 1018575, MPN: 101-441U) by Nasco Healthcare, USA is a 4-pack of genuine OEM replacement thigh injection sites for the adult Simulaids SMART STAT ALS simulator family. Weighing 0.281 kg per pack, this consumable maintains the intramuscular injection training capability of the SMART STAT thigh module — ensuring that trainees practise IM injection technique against the correct tissue resistance, correct needle angle feedback, and correct anatomical site representation across multiple training sessions.

The thigh is a primary IM injection site in clinical practice — used for adrenaline auto-injection, vaccine administration, and emergency drug delivery. On the SMART STAT platform it is a discrete injection module separate from the arm site (101-302), which means thigh injection training degrades independently and requires its own replacement schedule. As with all injection site consumables, the thigh pad accumulates puncture damage from repeated needle insertions and progressively loses the material integrity that makes training meaningful — surface resistance drops, self-sealing capability deteriorates, and the pad begins to misrepresent the real tissue feel that trainees need to develop correct technique. Running sessions on a worn site trains incorrect technique. The 4-pack format provides a practical stock quantity for simulation labs running regular ALS, nursing, or emergency medicine programmes on the SMART STAT system. Only genuine OEM sites are guaranteed to fit the SMART STAT thigh module with correct dimensions and material specification.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare and Simulaids products in India with over 30 years of experience supplying medical simulators and genuine OEM consumables to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which simulators is this replacement thigh injection site compatible with? A: This 4-pack (101-441U) is designed for the thigh injection module on the adult Simulaids SMART STAT ALS simulator family by Nasco Healthcare.

Q: How does this differ from the Injection Site Replacement, Arm (101-302)? A: These are separate modules for separate anatomical sites — the thigh site (101-441U) is for IM thigh injection training, while the arm site (101-302) is for arm injection training. Both must be stocked and replaced independently.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724. We supply genuine Nasco Healthcare consumables with pan-India delivery.
