Product Description

Designed to easily attach to any “Airway Larry,” CRiSis™ and CPARLENE®: brand torsos or manikins. without pants.

Lower Body Without Pants for Life/form® Manikin 1005650 (Item No. 1019769 | MPN: LF03224U | Nasco Healthcare, USA)

A genuine OEM replacement lower body assembly for the Life/form® manikin model 1005650, supplied without pants. This variant is the preferred choice for clinical skill labs and training institutions that use their own standardised patient gowns, drapes, or hospital-issue clothing — or where unclothed lower-body access is required for specific training scenarios.

Designed to easily attach to any Airway Larry®, CRiSis™, and CPARLENE® brand torsos or manikins.
[semtrainers](http://semtrainers.com)

When to choose the without-pants version:

- Institutions supplying their own patient gowns or drapes for realistic hospital-environment simulation
- Training scenarios requiring direct lower-body access — catheterisation, perineal care, wound assessment, or lower-limb IV insertion
- Situations where the existing pants from another lower body are still serviceable and only the body shell requires replacement
- Labs that standardise manikin presentation using their own clothing inventory

Key Features:

- OEM fit for Life/form® manikin model 1005650
- Compatible with Airway Larry®, CRiSis™, and CPARLENE® torso assemblies
- Pants not included — lower body shell only
- Restores correct anatomical proportions for patient handling and full-body assessment practice
- Genuine Nasco Healthcare replacement part — ensures material and fit consistency with the original unit

If your institution requires the complete assembly including pants, refer to Item No. LF03223U — Lower Body with Pants for 1005650.
