Deluxe CRiSis™ Resuscitation Training System with ECG and Advanced Airway Management - Full-Body

Item No. 1021989
Weight 28.078kg
MPN: LF03987U

SKU:

Categories:ALS Adult

Product Description

Life/form® Adult CRiSis™ Manikins Complete resuscitation system that presents challenges you may face in real world situations, with five major features allowing practice of several simulation scenarios. It is ideal for Advanced Life Support (ALS) courses aimed to teach resuscitation guidelines and skills to healthcare professionals. Modular components allow you to create a manikin to suit your needs. **Airway Management**

- Compatible airway management devices include E.T., E.O.A., E.T.L., L.M.A., E.G.T.A., Combitube®, and King Systems
- Cricoid cartilage allows for practice of Sellick maneuver
- Oral, nasal, and digital intubation

- Palpable carotid pulse (manual)
- Separate left and right lungs for auscultation
- Suctioning capabilities

Defibrillation Chest

- Compatible with all standard brands and types of defibrillators, monitors, and patient simulators
- Internal load box absorbs full strength of every shock — designed to handle up to maximum recommended 360 Joules
- Manual, semiautomatic, and automatic defibrillation
- Monitor manikin like a real patient at 4 ECG sites and 2 defibrillation sites CPR
- Fully articulated head, neck, and jaw
- Jaw thrust
- Palpable and visual landmarks

Blood Pressure Arm

- Auscultatory gap
- 5 Korotkoff phases
- Systolic and diastolic levels, heart rate, and sound volume
- Radial pulse
- Use with an optional external speaker system to broadcast sounds to the entire classroom

IV Arm

- Articulated at the biceps for antecubital and dorsal access
- Bony landmark at shoulder to identify muscle tissue for intramuscular injections
- Realistic flashback from a pressurized system
- Replaceable skin and veins

Why Choose the Deluxe CRiSis™ Resuscitation Training System with ECG and Advanced Airway Management – Full-Body for Your Simulation Lab in India?

The Life/form® Deluxe CRiSis™ Resuscitation Training System with ECG and Advanced Airway Management – Full-Body (Item No. 1021989, MPN: LF03987U) by Nasco Healthcare, USA is the full-body CRiSis™ configuration that combines three premium capabilities in a single package: Advanced Airway Management with laryngospasm and tongue oedema simulation, the Interactive ECG Simulator (1005666) included as standard, and the full-body format for team-based resuscitation training. Weighing 28.078 kg, this is the configuration for ACLS training programmes that need difficult airway scenarios, integrated ECG rhythm training, and full patient spatial realism — all without the CPR Metrix add-on — making it a well-specified mid-tier choice between the standard Deluxe CRiSis™ and the Deluxe Plus configurations. The CRiSis™ Auscultation Kit (1019786) and carry case (1021990) are

available as optional additions.

All five ALS training modules are present. The Advanced Airway Management module covers ET, EOA, ETL, LMA, EGTA, Combitube®, and King Systems insertion, oral, nasal, and digital intubation, palpable cricoid cartilage for Sellick manoeuvre, manual carotid pulse, suction technique, bilateral lung auscultation, and supraglottic airway device compatibility. The laryngospasm and tongue oedema upgrade adds simulated difficult airway conditions that challenge trainees to adapt their management approach — the key differentiator between this configuration and the standard Deluxe CRiSis™. The Interactive ECG Simulator provides programmed rhythm scenarios for integrated rhythm recognition and defibrillation decision training. The defibrillation chest accepts all standard defibrillator brands with a 360-joule internal load box, monitors ECG at four sites and defibrillation at two sites, and supports manual, semiautomatic, and automatic modes. The blood pressure arm delivers all five Korotkoff phases with auscultatory gap, adjustable parameters, radial pulse, and optional external speaker connectivity. The IV arm articulates at the biceps for antecubital and dorsal access, includes an IM injection landmark, delivers realistic pressurised flashback, and features replaceable skin and veins.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support. All products carry genuine manufacturer warranty and meet ISO 9001 quality standards.

Frequently Asked Questions

Q: How does this differ from the Deluxe CRiSis™ (1021988) and the Complete CRiSis™ with Advanced Airway Management (1021987)? A: Compared to the Deluxe CRiSis™ (1021988), this adds laryngospasm and tongue oedema (Advanced Airway). Compared to the Complete CRiSis™ with Advanced Airway (1021987), this adds the Interactive ECG Simulator. Neither this nor 1021987 includes CPR Metrix — that requires the Deluxe Plus configurations.

Q: Does SEM Trainers provide installation and training support? A: Yes — on-site installation, demo, and faculty orientation anywhere in India.

Q: What is the warranty and how do I get support? A: Standard Nasco Healthcare manufacturer warranty. Reach us at sem@semtrainers.com or call +91-88495 63724.
