Deluxe CRiSis™ Resuscitation Training System - Full-Body

Item No. 1021988
Weight 28.078kg
MPN: LF03955U

SKU:

Categories:ALS Adult

Product Description

Life/form® Adult CRiSis™ Manikins Complete resuscitation system that presents challenges you may face in real world situations, with five major features allowing practice of several simulation scenarios. It is ideal for Advanced Life Support (ALS) courses aimed to teach resuscitation guidelines and skills to healthcare professionals. Modular components allow you to create a manikin to suit your needs. **Airway Management**

- Compatible airway management devices include E.T., E.O.A., E.T.L., L.M.A., E.G.T.A., Combitube®, and King Systems
- Cricoid cartilage allows for practice of Sellick maneuver
- Oral, nasal, and digital intubation
- Palpable carotid pulse (manual)
- Separate left and right lungs for auscultation

- Suctioning capabilities

Defibrillation Chest

- Compatible with all standard brands and types of defibrillators, monitors, and patient simulators
- Internal load box absorbs full strength of every shock — designed to handle up to maximum recommended 360 Joules
- Manual, semiautomatic, and automatic defibrillation
- Monitor manikin like a real patient at 4 ECG sites and 2 defibrillation sites CPR
- Fully articulated head, neck, and jaw
- Jaw thrust
- Palpable and visual landmarks

Blood Pressure Arm

- Auscultatory gap
- 5 Korotkoff phases
- Systolic and diastolic levels, heart rate, and sound volume
- Radial pulse
- Use with an optional external speaker system to broadcast sounds to the entire classroom

IV Arm

- Articulated at the biceps for antecubital and dorsal access
- Bony landmark at shoulder to identify muscle tissue for intramuscular injections
- Realistic flashback from a pressurized system
- Replaceable skin and veins

Why Choose the Deluxe CRiSis™ Resuscitation Training System – Full-Body for Your Simulation Lab in India?

The Life/form® Deluxe CRiSis™ Resuscitation Training System – Full-Body (Item No. 1021988, MPN: LF03955U) by Nasco Healthcare, USA is the full-body, Interactive ECG-included configuration of the Deluxe CRiSis™ platform — a step above the Complete Adult CRiSis™ in both electronics and full-body realism. Weighing 28.078 kg, this manikin ships with the Interactive ECG Simulator (1005666) included as standard, adding programmed ECG rhythm training directly to the ACLS scenario without additional purchase. The full-body format adds spatial realism for team-based resuscitation training and patient positioning practice alongside the five integrated ALS training modules. The CRiSis™ Auscultation Kit (1019786) and carry case (1021990) are available as optional additions.

The five training modules cover the complete ALS skill set. The airway management module supports ET, EOA, ETL, LMA, EGTA, Combitube®, and King Systems insertion, oral, nasal, and digital

intubation, palpable cricoid cartilage for Sellick manoeuvre, manual carotid pulse, suction technique, bilateral lung auscultation, and compatibility with supraglottic airway devices. The defibrillation chest accepts all standard defibrillator brands with an internal load box rated to 360 joules, monitors ECG at four sites and defibrillation at two sites, and supports manual, semiautomatic, and automatic defibrillation modes. The Interactive ECG Simulator included with this configuration provides programmed rhythm scenarios for combined rhythm recognition and defibrillation decision training — a capability not present in the Complete Adult CRiSis™. The blood pressure arm delivers all five Korotkoff phases with auscultatory gap, adjustable systolic, diastolic, heart rate, and sound volume, radial pulse, and optional external speaker connectivity. The IV arm articulates at the biceps for antecubital and dorsal access, includes an IM injection landmark, delivers realistic pressurised flashback, and features replaceable skin and veins.

This manikin is the right choice for ACLS and ALS training programmes, emergency medicine residency departments, ICU and anaesthesiology skills labs, and NMC-mandated simulation labs in Indian medical colleges that want a full-body resuscitation platform with built-in ECG simulation and the full CRiSis™ ALS feature set.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support. All products carry genuine manufacturer warranty and meet ISO 9001 quality standards.

Frequently Asked Questions

Q: How does this differ from the Complete Adult CRiSis™ (1019919)? A: The Deluxe CRiSis™ (1021988) includes the Interactive ECG Simulator (1005666) as standard — the Complete Adult CRiSis™ does not. Both have the same five ALS training modules and neither includes laryngospasm/tongue oedema (that requires the Advanced Airway configurations).

Q: Does SEM Trainers provide installation and training support? A: Yes. We provide on-site installation, hands-on demonstration, and faculty orientation anywhere in India.

Q: What is the warranty and how do I get support? A: All Nasco Healthcare products carry standard manufacturer warranty. For support, reach us at sem@semtrainers.com or call +91-88495 63724.

Manikin can be used with Supraglottic airway devices for airway training.
