6 Umbilical Clamps

Item No. LF03643U**Weight** 0.017kg**Make:** Nasco Healthcare, USA[Read More](#)**SKU:****Categories:**ALS Child

Product Description

Package of 6. For use with Life/form® Infant CRiSis™ Manikins. Caution: Use only Life/form® Replacements. Do not use conventional latex tubing. This will cause malfunctioning of the simulator.

Why Choose the Life/form® 6 Umbilical Clamps for Your Simulation Lab in India?

The Life/form® 6 Umbilical Clamps (Item No. LF03643U) by Nasco Healthcare, USA is a 6-pack of genuine OEM replacement umbilical clamps weighing 0.017 kg per pack, designed specifically for use with Life/form® Infant CRiSis™ Manikins. The umbilical clamp is a procedural training consumable for umbilical cannulation simulation — the neonatal vascular access skill used in neonatal resuscitation when peripheral IV access is not immediately achievable. Each clamp is used and replaced as part of the umbilical cannulation training sequence on the Infant CRiSis™ simulator, and the 6-pack provides a

practical stock quantity for simulation labs running regular NRP, neonatal resuscitation, and paediatric emergency training programmes.

Important safety notice: Only genuine Life/form® OEM umbilical clamps (LF03643U) must be used with Infant CRiSis™ Manikins. Nasco Healthcare explicitly cautions against substituting conventional latex tubing or non-OEM clamps — doing so will cause malfunction of the simulator. The umbilical cannulation module on the Infant CRiSis™ is engineered to function correctly only with the specified OEM clamp geometry and material. Using a substitute risks damaging the simulator's internal umbilical cannulation mechanism, potentially requiring costly repair or replacement of the entire module. For simulation labs in India where the Infant CRiSis™ is shared across multiple training sessions and trainee cohorts, maintaining a stock of genuine LF03643U clamps and replacing them on schedule is both a training quality requirement and a simulator protection measure.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM consumables to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which simulators are these umbilical clamps compatible with? A: LF03643U is designed exclusively for use with Life/form® Infant CRiSis™ Manikins by Nasco Healthcare. They must not be used with other simulators or substituted with non-OEM clamps.

Q: Can conventional latex tubing be used as a substitute? A: No. Nasco Healthcare explicitly prohibits the use of conventional latex tubing as a substitute. Doing so will cause malfunction of the Infant CRiSis™ simulator. Only genuine LF03643U OEM clamps must be used.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724. We supply genuine Nasco Healthcare consumables with pan-India delivery.
