Categories:Premium

Product Description

[ORTHObones](#) by [3B Scientific](#) perfectly resemble a human bone and offer exceptional value for a low price. The impressive realism lies within the two part construction of the hard, outer cortical shell and the softer, inner cancellous bone. These are the highest quality and most realistic [artificial bones](#) on the market. The femur bone can be used by surgeons to practice hip replacement surgeries or by medical

engineers to demonstrate a new medical device. This artificial bone is the closest you can get to the real thing! Overall length: 47 cm Canal diameter: 8 mm Head diameter: 43 mm Lateral to medial condyle: 74 mm

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of 3B OrthoBones products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: What procedures can be practiced with this bone? A: Hip replacement surgeries and demonstrating new medical devices.
