SKU:

Categories:Premium

Product Description

The newly developed ORTHObones are the highest quality [artificial bones](#) on the market. These realistic bones are constructed to simulate the two distinct layers of real human bones; the hard outer cortical shell and the softer inner cancellous bone. The excellent biomechanical characteristics make these bones an exceptional value! The humerus bone is ideal for surgeons and orthopedists to practice

correcting arm fractures or for medical engineers to demonstrate new medical devices.

ORTHObones® PREMIUM – Right Humerus (1005121 [W19125] / MPN 0130R)

The newly developed ORTHObones are the highest quality artificial bones on the market. These realistic bones are constructed to simulate the two distinct layers of real human bones: the hard outer cortical shell and the softer inner cancellous bone. The excellent biomechanical characteristics make these bones an exceptional value.

Ideal for arm fracture correction practice. The humerus bone is ideal for surgeons and orthopedists to practice correcting arm fractures, or for medical engineers to demonstrate new medical devices.
