Categories:Premium

Product Description

Benefiting surgeons and medical engineers worldwide, ORTHObones are the highest quality [artificial bones](#) on the market. Resembling genuine human bones in terms of rigidity, density and lifelike structure, ORTHObones are the closest you can get to the real thing. These realistic bones are constructed to simulate the two distinct layers of [real human bones](#); the hard outer cortical shell and the

softer inner cancellous bone. The excellent biomechanical characteristics make these bones an exceptional value! The sacrum bone can be used to demonstrate corrective procedures used on sacral fractures. Medical devices can also be implanted for demonstration and patient education.

ORTHObones® PREMIUM – Sacrum (1005120 [W19124] / MPN 0120)

Benefiting surgeons and medical engineers worldwide, ORTHObones (Item No. 1005120 [W19124], MPN 0120, 0.25 kg, 11×9×6 cm) are the highest quality artificial bones on the market. Resembling genuine human bones in terms of rigidity, density, and lifelike structure, ORTHObones are the closest you can get to the real thing.

Realistic two-layer construction. These realistic bones are constructed to simulate the two distinct layers of real human bones: the hard outer cortical shell and the softer inner cancellous bone. The excellent biomechanical characteristics make these bones an exceptional value.

Ideal for sacral fracture procedure practice. The sacrum bone can be used to demonstrate corrective procedures used on sacral fractures. Medical devices can also be implanted for demonstration and patient education.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of 3B OrthoBones products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: What procedures can be practiced with this bone? A: Corrective procedures for sacral fractures, plus implanting and displaying medical devices for patient education.
