SKU:

Categories:Premium

Product Description

ORTHObones, the leader in **artificial bones**, is used by surgeons, orthopaedists and medical engineers worldwide. These high quality, biomechanical bones perfectly resemble a human bone in terms of form and characteristics. These **realistic bones** are constructed to simulate the two distinct layers of real human bones; the hard outer cortical shell and the softer inner cancellous bone. The excellent

biomechanical characteristics make these bones an exceptional value! The Mandible with Teeth is ideal for demonstrating procedures like corrective jaw surgery or displaying medical devices used in craniomaxillofacial surgeries.

ORTHObones® PREMIUM – Mandible with Teeth (1005116 [W19120] / MPN 0180)

ORTHObones, the leader in artificial bones, is used by surgeons, orthopaedists, and medical engineers worldwide. These high quality, biomechanical bones perfectly resemble a human bone in terms of form and characteristics.

Realistic two-layer construction. These realistic bones are constructed to simulate the two distinct layers of real human bones: the hard outer cortical shell and the softer inner cancellous bone. The excellent biomechanical characteristics make these bones an exceptional value.

Ideal for jaw and craniomaxillofacial surgery practice. The Mandible with Teeth is ideal for demonstrating procedures like corrective jaw surgery or displaying medical devices used in craniomaxillofacial surgeries.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of 3B OrthoBones products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: What procedures can be practiced or demonstrated with this bone? A: Corrective jaw surgery and displaying medical devices used in craniomaxillofacial surgeries.
